On line: All of our technical data sheets and health & safety data sheets are available to download on line.

On site: If you would like Robex to apply your product for you call on the number below, we manufacture, we supply and we apply.

Robex Clear Floor Coating

- Resists staining and provides a cleanable surface
- Easy to use – single pack formulation
- Quick drying
- Hard wearing

Robex Clear Floor Coating is an easy to apply clear sealer for concrete and similar surfaces. Rapid curing, once dry provides a barrier against general contamination in industrial use areas.

Robex Clear Floor Coating

- **Preparation**

New concrete should be at least 28 days old or the moisture content less than 5%. All floors must be thoroughly dry and clean, vacuum shot blasting is recommended especially on old dense floors. Acid etching on floors is not recommended with moisture curing products as the extra dampness imparted by this process can detract from the 'key'. Should it be necessary to use Robex Power Prep E prior to coating, the concrete must be rinsed thoroughly with water and allowed to dry. It is important that no moisture is present before application.

- **Mixing Ratio**

Single pack – however, contents must be thoroughly stirred prior to use.

- **Coverage**

Approximately 40m² per 5 ltrs – two coats normally required

- **Curing Time**

Touch Dry:	30 minutes – 2 hours
Full Cure:	18 hours depending on temperature

- **Flashpoint**

100°C.

- **Minimum Cure Temperature**

40°C

- **Application**

Apply by brush or roller.

Two coats are usually required on very porous surfaces.

Over coating should take place before 24 hours and after 6 hours.

- **Storage Life**

12 months in original sealed containers. Protect from frost.

- **Cleaning**

To clean brushes, equipment, contaminants, etc., we recommend the use of Robex Cleaning Solvent RX117.

- **Health & Safety**

Please refer to the relevant Health and Safety Data Sheet.

No liability is accepted for any injury, loss or damage arising directly or indirectly from the use of the Company's products or from the use of information given in our data sheets, since the customer's use of the product is necessarily out of our control. The information given is intended to serve as a guide only. Customers should satisfy themselves by appropriate trials that the products are suitable for their intended use.
