

Robex Gum Buster

Works like magic to remove all traces of chewing gum

Robex Gum Buster

- Quick and easy to use
- Treat several areas at a time
- Safe, non-toxic and biodegradable formula

Robex Gum Buster is a safe non-toxic biodegradable product that will remove chewing gum from almost any surface including carpets, Astroturf, fabrics and upholstery. Gum Buster will also remove adhesives, blood, fat, felt pen, motor oil, tar, plus more.

- **Application Methods - shake well before every application**

1. Pierce the gum deposits thoroughly and then apply Robex gum Buster only to the chewing gum surface and leave for a few minutes.
2. Agitate with a paint scraper, pallet knife or similar and scrape up the dissolved chewing gum into a tissue or cloth. If the chewing gum is old, Robex Gum Buster should be left for a further few minutes and a second application may be necessary. When free of chewing gum simply clean the surface with a damp cloth.

Applications can be made to multiple deposits; simply apply to the surface, leave for 30 minutes and then return to the first application and remove as detailed above.

- **Other uses**

Stains/contaminants on carpet/clothing/upholstery

Providing the stain is dry, apply to the area and leave for 5-10 minutes, agitate with serrated knife or similar. Apply again if necessary. Wipe after with a damp cloth.

Stains/contaminants on hard surfaces

Apply to the contaminated area either directly or from a damp cloth or tissue. Leave to activate for 1-5 minutes. Agitate. Wipe clean with a damp cloth.

Robex Gum Buster can also be used to remove inks and permanent markers from non-porous surfaces agitating where necessary with a fine scourer. In addition to this Robex Gum Buster can be used to remove permanent markers from whiteboards applying directly or with a cloth ensuring the product is spread liberally over the area to be treated. Wipe the area and then clean away with a cloth or tissue.

- **Storage**

Store at room temperature.

Shelf life: 12 months minimum
